*Toujours +* reunites at Florence Loewy... by artists the ten artists who took part in the *Plus Une Pièce* | *Plus Un Multiple* project, earlier in 2014.

In these exhibitions, one by one the artists created a piece with the constraint of an unusual space: a storage unit of 2.5 sq.m. They also produced a multiple in an edition of 25. The constraint for this piece was to fit into a C4 envelope.

Now, the artists involved in *Toujours +* have to work in a segmented space within a common time, to display new pieces side by side on 61.5cm of wall.

Still playing upon time and space factors, and further reduced area units, the works exist. Transposing the *Plus Une Pièce* project in a gallery space, *Toujours +* is a response based on an economy of means echoing that of the storage unit.

The ten artists have been chosen for the heterogeneity of their practices and their ability to renew the experience of a place, meeting here in proximity to each other.
